

Registering the Plant with the Connecticut Green Bank

Instructions for Connecticut Installers

1. Install the Solar-Log® 350, 360, 370 & GE Meter.
2. Create a plant on the Solar-Log® WEB portal.
3. Register the plant with the Connecticut Green Bank via Power Clerk
 - Need the Solar-Log® Serial Number (SN) found on the back of the meter or on the enclosed Solar-Log® WEB Registration card. The number of digits will vary.
4. Email the following to reporting@solar-log.com:
 - Solar-Log® Serial Number (SN) found on the back of the meter or on the enclosed Solar-Log® WEB Registration card. The number of digits will vary.
 - Request activation of CT Green Bank reporting

Solar-Log® will activate reporting and link the customer plant page to the Connecticut Green Bank WEB portal which will provide Connecticut Green Bank with visibility into plant graphics and plant yield reports. Connecticut Green Bank will have the ability to run yield reports as needed.
