

REQUEST FOR PROPOSALS FOR FRONT-OF-THE-METER STORAGE CONSULTANT

I. PURPOSE

The Connecticut Green Bank (“Green Bank”) seeks proposals from qualified consultant (“Contractor”) to advise and consult regarding front-of-the-meter (FTM) storage.

II. GREEN BANK BACKGROUND

The Green Bank was established by the Connecticut General Assembly in 2011. As the nation’s first green bank, it is leading the clean energy finance movement by leveraging public and private funds to scale-up renewable energy deployment and energy efficiency projects across Connecticut. The Green Bank’s success in accelerating private investment in clean energy is helping Connecticut create jobs, increase economic prosperity, promote energy security and address climate change. In 2017, the Green Bank received the Innovations in American Government Award from the Harvard Kennedy School Ash Center for Democratic Governance and innovation for their “Sparking the Green Bank Movement” entry. For more information about the Green Bank, please visit www.ctgreenbank.com.

III. PROGRAM BACKGROUND

On July 28, 2021, the Connecticut Public Utilities Regulatory Authority (PURA) issued a final Decision in Docket No. 17-12-03RE03¹, which establishes a statewide behind-the-meter electric storage program (Program), available to all customers and customer classes within the service territories of The Connecticut Light and Power Company d/b/a Eversource Energy (Eversource) and The United Illuminating Company (UI), collectively the electric distribution companies (EDCs). The Program is now being administered through PURA Docket No. 21-08-05.²

¹ The 17-12-03RE03 Final Decision is available at [click here](#)

² The 21-08-05 Final Decision is available at [click here](#)

As part of these proceedings, several front-of-the-meter (FTM) storage developers provided testimony. The Connecticut Green Bank (Green Bank) has been directed to identify and assess the barriers and opportunities for FTM storage in Connecticut.³ The Green Bank is seeking to hire a consultant to help model the value proposition of FTM storage. Further, there have been specific requests by PURA which necessitate FTM storage benefit-cost analysis for which the Green Bank seeks support.

IV. SCOPE OF SERVICES

Through this RFP, the Green Bank seeks to retain a third-party company, or team of companies, to undertake the following tasks:

1. Conduct research and advise on market issues surrounding the design and deployment of front-of-the-meter (FTM) storage including but not limited to:
 - a. Provide support to the Green Bank in its consultations with FTM electric storage stakeholders to identify FTM use cases, value streams (including ISO-NE markets), and barriers to entry.
 - b. Perform an analysis identifying the gap between potential ratepayer value created by deploying FTM storage at the transmission and/or distribution levels, and potential compensation opportunities. This will include modeling any proposed changes in tariffs for FTM storage.
 - c. Generate FTM storage BCAs for business-as-usual and any recommended modifications, including the options proposed by Key Capture Energy during the course of the PURA proceedings (see Key Capture response to CAE-5⁴).
 - d. Provide support to the Green Bank in its submittal of the results of the above ordered actions on or before June 1, 2022.
 - e. Provide support to the Green Bank during oral and/or written testimony that may follow on from the June 1, 2022, filing.

³ The 17-12-03RE03 Final Decision reads:

“Therefore, the Authority directs the CGB take the following steps:

- *Perform BCAs of Key Capture’s proposed options one through four. See, Key Capture Response to CAE-5. The CGB should consult with FTM electric storage stakeholders to further refine any parameters needed to calculate the complete BCAs.*
- *The CGB should consult with FTM electric storage stakeholders, DEEP, the EDCs, and wholesale market participants to better understand the barriers to entry, market opportunities, and programs for FTM standalone electric storage systems.*

The CGB shall provide the results of the above ordered actions, including a recommended path forward on or before June 1, 2022, which will be considered in the appropriate annual Program review proceeding.”

The PURA Ruling on Motion Nos. 19&20 (at [click here](#)) reads:

“...The Authority directs the Connecticut Green Bank to address the applicability of the proposed FTM Electric Storage Riders, and to provide any recommended changes, in its June 1, 2022 compliance with Order No. 19 of the Storage Decision proposing program modifications applicable to FTM electric storage systems.”
