## Executive Summary

On July 28, 2021 the Connecticut Public Utilities Regulatory Authority (PURA) issued a final Decision in Docket No. 17-12-03RE03<sup>1</sup>, which establishes a statewide electric storage program (Energy Storage Solutions), available to all customers and customer classes within the service territories of The Connecticut Light and Power Company d/b/a Eversource Energy (Eversource) and The United Illuminating Company (UI), collectively the electric distribution companies (EDCs). The program will be delivered over nine years, beginning in 2022, in three-year cycles, giving the parties and PURA opportunities to update the program guidelines as new circumstances may dictate.

Energy Storage Solutions is administered jointly by the Connecticut Green Bank (Green Bank) and the EDCs, overseen by PURA, and funded by Connecticut ratepayers. CGB is directed to retain third-party inspectors to ensure that the energy storage systems installed are up-and-running as a complete unit and prepare reports of results for review and approval by the Green Bank. This RFQ provides the basis for the scope of work to be performed by a third-party inspector.

<sup>1</sup> The proposed final Decision is available [here](#).

## **1. Purpose**

The Green Bank seeks proposals from qualified inspectors to advise and consult on energy storage systems incentivized by the Green Bank and the EDCs. Inspectors will be required to conduct site visits at residential and commercial sites utilizing Green Bank and EDC funds to ensure that systems are installed properly, safely, and in accordance with manufacturers' specifications and incentive applications. Inspectors will also be required to coordinate and correspond with installers and customers to address any issues in the field, as well as upload reports to Green Bank's online workflow management tool. A working knowledge of energy storage and completion of the "Application – Inspector Qualification Form" (separate document) is required. Inspectors may be asked to perform inspections for other Green Bank projects, if needed.

Approval as a third-party inspector does not guarantee workload volume. Inspectors will be required to budget their time accordingly and notify staff of any expected change in availability.

## **2. Scope of Services**

- Perform routine residential and/or commercial Energy Storage System ("ESS") inspections throughout the state of CT
- Communicate effectively and professionally with ESS installers, customers, and EDC's and Green Bank staff
- Possession of and ability to use equipment necessary to check on-site electrical connections and verify an ESS system (such as a Watt meter, a digital camera, and a tablet or smart phone for completing reports remotely).
- Ability to evaluate and confirm if an ESS is capable of islanding
- Knowledge of ESS components, (i.e., a familiarity with ESS manufacturers and AC- and DC- coupled systems)
- Working knowledge of current and applicable National Electrical Code with particular emphasis on Articles 480, 705, 706, and 710.
- Understanding of labeling requirements for energy storage systems
- Previous experience either designing, installing, or inspecting battery technologies (and/or Solar PV technologies)
- Previous coursework with ESS's is preferred (i.e., NABCEP or manufacturers' certifications)
- Ability to manage a varied workload including the scheduling of appointments with homeowners and installers
- Ability to work with online workflow management tools, such as Salesforce

4. Green Bank will not be responsible for expenses incurred by a proposer in conjunction with the preparation or presentation of any response to this RFQ.
5. Green Bank's selection of an Inspector through this RFQ is not an offer and Green Bank reserves the right to continue negotiations with the selected Inspector until the parties reach a mutual agreement.
6. Inspector will execute a **nonnegotiable** Professional Service Agreement (PSA) as set forth in the attached Exhibit A. (For example only).

Consultant should further provide a statement stating the basis for each claim of exemption. It will not be sufficient to state generally that the information is proprietary or confidential in nature and not, therefore, subject to release to third parties. Consultant acknowledges that (1) Green Bank has no obligation to notify Consultant of any FOIA request it receives, (2) Green Bank may disclose materials claimed by Consultant to be exempt if in its judgment such materials do not appear to fall within a statutory exemption, (3) Green Bank may in its discretion notify Consultant of FOIA requests and/or of complaints made to the Freedom of Information Commission concerning items for which an exemption has been claimed, but Green Bank has no obligation to initiate, prosecute, or defend any legal proceeding, or to seek to secure any protective order or other relief to prevent disclosure of any information pursuant to an FOIA request, (4) Consultant will have the burden of establishing the availability of any FOIA exemption in any such legal proceeding, and (5) in no event shall Green Bank or any of its officers, directors, or employees have any liability for the disclosure of documents or information in Green Bank’s possession where Green Bank, or such officer,

director, or employee, in good faith believes the disclosure to be required under the FOIA or other law.
