

## c-space

### Customer Story

**The Bushnell Center will save more than \$59,000 in energy costs this year.**

**Their boiler was old and inefficient.** Lynn Robinson, Director of Operations and David Fay, President and CEO of The Bushnell Center, knew that sooner rather than later, they would need to address its poor performance and high operating costs. But, as a nonprofit, David and Lynn found themselves in a financial corner – until they found C-PACE. It offered long term, fixed rate financing that made the latest technology and annual savings possible.

### Location

**The Bushnell Center • Hartford, CT**

### Energy Upgrade

Three energy efficient boilers and a new energy efficient hot water heater

### C-PACE Financing\*

**\$384,000** over 20 years

### Projected Energy Savings

**\$1,173,479** over the life of the upgrades

\*While C-PACE can cover up to 100% of project costs, the C-PACE financing amount is not reflective of the total project cost, which may include owner contributions, incentives, utility or other grants, renewable energy credits or other funding.

“By taking advantage of the innovations in C-PACE financing, the Bushnell is not only able to make this long-overdue replacement with no up-front expenditure, but we will actually realize a positive cash flow.”

*David Fay, President and CEO  
The Bushnell Center*
