

c-space

Customer Story

Calvary Temple Christian Center will save more than \$14,000 in energy costs this year.

Jenice Thompson, Co-Pastor, and John Thompson, Bishop, of Calvary Temple Christian Center used to dread cold weather.

They feared their furnace wouldn't stay on and they'd be unable to hold ministry. C-PACE was their saving grace. It brought them the latest technology and annual fuel savings without any upfront cost. It gave them peace of mind that their congregation would stay warm.

Location

Calvary Temple Christian Center • Bridgeport, CT

Energy Upgrade

New high efficiency gas boiler and fuel conversion

C-PACE Financing*

\$52,653 over 10 years

Projected Energy Savings

\$267,220 over the life of the upgrades

“When we told them we have C-PACE on board, you should have heard the congregation. They were singing praises because they knew that something was going to be done. And now that the boiler is replaced, everybody comes in with a smile on their face knowing that this winter, we're still going to have church.”

Jenice Thompson, Co-Pastor

*While C-PACE can cover up to 100% of project costs, the C-PACE financing amount is not reflective of the total project cost, which may include owner contributions, incentives, utility or other grants, renewable energy credits or other funding.
