Nearly 140 participating cities and towns can use C-PACE to fuel economic development, make their community cleaner and help their citizens thrive.

C-PACE (Commercial Property Assessed Clean Energy) is an innovative program that makes green solutions more accessible and affordable. Thanks to the building owners, contractors and other stakeholders who are using the program to accelerate the green energy movement – Connecticut’s C-PACE program has seen growing investment, enabled diverse energy saving improvements, and has made a significant impact on the community. This quarterly dashboard tracks these measures:

**INVESTMENT**

**Closed Projects** The cumulative number of funded projects are increasing every quarter as more building owners take action to reduce their energy costs and increase NOI.

**C-PACE is Growing** The total amount of project financing continues to grow as more energy saving projects are closed.

**$214.7M**

**total closed project financing**

**IMPROVEMENTS**

**All Sizes of Projects** C-PACE can bring virtually any green energy project, small or large, from a vision to a reality.

$30K Smallest

$603k Average Amount Financed

$13.8M Largest

**All Shapes of Properties** From manufacturing facilities to YMCAs all commercial properties are eligible to use C-PACE for an energy saving project.

24% Industrial

16% Other

25% Office

14% Nonprofit

21% Retail

**IMPACT**

**Making Green Work** With financing available for hard and soft costs, C-PACE contractors can design comprehensive projects and gain access to new customers.

100 contractors have completed at least one C-PACE project

**More Green Communities** Nearly 140 participating cities and towns can use C-PACE to fuel economic development, make their community cleaner and help their citizens thrive.

**The Power of Green Energy** C-PACE projects are creating jobs, saving businesses millions of dollars, and supporting a cleaner, healthier environment.

$304.4M energy costs saved

4.2M MMBTU energy saved

42.3MW of clean energy deployed

876k TONS GHG emissions eliminated

$2.371 billion green jobs created

*Energy savings based on projections.*
