

C-PACE (Commercial Property Assessed Clean Energy) is an innovative program that makes green energy more accessible and affordable. Thanks to pacesetters – the building owners, contractors and other stakeholders who are using the program to accelerate the green energy movement – Connecticut's C-PACE program has seen growing investment, enabled diverse energy saving improvements, and has made a significant impact on the community. This quarterly dashboard tracks these measures:

# **INVESTMENT Closed Projects** The cumulative number of funded projects are increasing every quarter as more building owners take action to reduce their energy costs and increase NOI.

#### **C-PACE is Growing The** total amount of project financing continues to grow as more energy saving projects are closed.

## Total Capital Invested Since program inception, the Green Bank is using fewer of its dollars to attract a growing amount of private capital.

## Green Bank vs. private

## **IMPROVEMENTS**

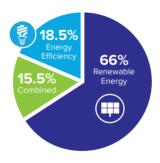

All Sizes of Projects C-PACE can bring virtually any green energy project, small or large, from a vision to a reality.

All Types of Green Energy From simple boiler replacements to solar C-PACE works for any upgrade that reduces energy costs.

#### **All Shapes of Properties**

From manufacturing facilities to YMCAs all commercial properties are eligible to use C-PACE for an energy saving project.

23%

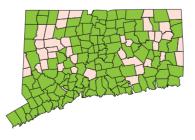

# **IMPACT**

Making Green Work With financing available for hard and soft costs, C-PACE contractors can design comprehensive projects and gain access to new customers.

#### **More Green Communities**

130 participating cities and towns can use C-PACE to fuel economic development, make their community cleaner and help their citizens thrive.

#### The Power of Green Energy C-PACE

projects are creating jobs, saving businesses millions of dollars, and supporting a 29 6MW cleaner, healthier environment.
