C-PACE (Commercial Property Assessed Clean Energy) is an innovative and affordable way for businesses, manufacturers and nonprofits to pay for green energy upgrades. C-PACE financing covers 100% of project costs with no money down and is repaid as a long-term assessment on the property. C-PACE not only makes green energy accessible, it allows owners to immediately increase cash flow and improve their building's value.

PACEsetters are the building owners, investors, contractors and municipal leaders who are using the C-PACE program to drive investment, improve our commercial building stock and accelerate the impact of green energy on our environment, economy and communities.

**INVESTMENT**

- Approved applications are on the rise. Interest among building owners is growing thanks to an investment structure that provides confidence.
- Approved applications: 194
