**RE: The Inflation Reduction Act of 2022-Section 60103, Greenhouse Gas Reduction
Fund: Joint State Recommendations**

Dear Administrator Regan and Senior Advisor Podesta,

As the Director of Puerto Rico's Energy Policy Program, I am writing to express support for the principles and recommendations included in the Greenhouse Gas Reduction Fund (GHGRF) comment letter submitted by the energy and environmental agencies of CT, CO, IL, LA, ME, MI, NV, NJ, NM, PA, and VT on December 5, 2022 (see attached letter). Although Puerto Rico was not able to accommodate the short timeline for signing on to this letter, we stand with these other energy and environmental agencies and support the views expressed in the letter.

Thank you for considering these comments as you develop a deployment strategy for the GHGRF. We look forward to collaborating with EPA on this important program.

Sincerely,

Carlos R. Tejera-Fernandez
