Customer Story

Stencil Ease will save more than \$20,000 in energy costs this year.

In 2019, property owner and former owner of Stencil Ease, Brian Greenho wanted to make an environmentally conscious decision to reduce reliance on fossil fuels. Now, the largest specialty stencil manufacturing company in the United States uses sunshine to make stencils, and can ship any of 55,000 items anywhere in the world in 24-48 hours.

Location

Stencil Ease • Old Saybrook, CT

Energy Upgrade

72 kW roof mounted solar photovoltaic system

C-PACE Financing

\$215,000 over 20 years

Projected Energy Savings

Projected Energy Savings **\$400,000** over the life of the upgrades

*While C-PACE can cover up to 100% of project costs, the C-PACE financing amount is not reflective of the total project cost, which may include owner contributions, incentives, utility or other grants, renewable energy credits or other funding.

Since energizing our solar system 2.5 years ago we have generated more than 200 megawatt hours of clean energy. This roof-top solar system not only saves our tenant money annually it also helps put solar energy back onto the state grid during peak demand periods. As energy costs continue to increase YOY the value of our system becomes more relevant.

Brian Greenho, Property Owner and former owner of Stencil Ease
