Partner Story

Glasco Heating & Air Conditioning, Inc. has been recognized perennially as a *Top Performer* in the Smart-E Loan program.

Paul Russo, co-owner, has been in the business over 29 years. After learning the trade at Goodwin Tech, he began designing and engineering new HVAC systems and soon formed Glasco. Paul is passionate about delivering not only energy and financial savings to his customers, but in making their homes more comfortable and enjoyable too. Partnering with the Green Bank supports Paul in growing his business and makes projects accessible to more homeowners with attractive financing.

"Smart-E is part of each conversation with a prospective customer. Connecticut has been at the forefront of providing opportunities to its residents to obtain clean HVAC options that also help them save money. Many of my customers are interested in newer, cleaner technologies like heat pumps that are better for the environment. Smart-E allows them to make that investment for the future and to save money now."

Paul Russo, Co-Owner
