Mystic Aquarium Plunges into Renewable Energy Upon Celebrating Major Milestone

Mystic Aquarium, a popular Connecticut tourist destination, celebrated its 50th anniversary in 2023. While celebrating this milestone, they also enhanced their reputation as a leader in sustainability by completing a comprehensive energy project using C-PACE financing to help reach their renewable energy goals. Mystic acknowledged that supporting the needs of thousands of animals is energy intensive - but their new HVAC and heat pump equipment not only reduced their costs but allows the aquarium to keep their animals safe and comfortable!

Location

Mystic Aquarium • Mystic, CT

Energy Upgrade

272 kW roof mounted solar photovoltaic system , HVAC upgrades, lighting, and energy-monitoring equipment

Projected Energy Savings

More than \$1 million over the life of the upgrades

"These projects created around \$1 million in savings, which is very important for our bottom line. But what we are most proud of is the impact to the environment."

Koray Gurz, CFO of Mystic Aquarium

*While C-PACE can cover up to 100% of project costs, the C-PACE financing amount is not reflective of the total project cost, which may include owner contributions, incentives, utility or other grants, renewable energy credits or other funding.
